

## DURING THE EVENT

Your main responsibility once people arrive is to manage the flow of the party. The video is short, so you can spend time discussing and networking. It is probably best to keep your party between 1-2 hours.

Don't worry if this is your first time hosting a party like this. You just need to get the discussion started. Your guests are all there because they are interested in hearing more about the clean economy.

Here is a sample agenda for your party:

### 1. WELCOME YOUR GUESTS

### 2. WATCH THE CLEAN ECONOMY NOW VIDEO

### 3. DISCUSSION

#### A. What does the clean economy look like in your state – and what opportunities is it creating?

- i. Look up and share the current list of clean energy projects in your state at [www.e2.org/announcements](http://www.e2.org/announcements)
- ii. **Discussion:** What types of job opportunities are being created by these projects? Have attendees seen increases in business/opportunities/jobs? In what fields?
- iii. How did this happen? And can we keep projects like this coming to our state?
- iv. What's the role of policy – both at the federal and state levels?

#### B. How is the clean economy workforce now in your state/community?

- i. Look up and share data on clean energy jobs for your state/county at [www.cleanjobsmaerica.e2.org](http://www.cleanjobsmaerica.e2.org)
- ii. **Discussion:** Did you know this many people worked in clean energy in your neighborhood? What are the different types of clean energy jobs? How important is energy efficiency?
- iii. What's driving this job growth? And how can we keep it going?

### 4. ACTION STEPS

We will have some social graphics that you can ask your guests to share!

## HAVE FUN!
